

**ANNAPURNA PET**  
PRIVATE LIMITED

**Expert in  
pet preforms &  
bottle caps**

## High Quality Manufacturing Facility

Our high quality PET preform products are manufactured by latest fully automatic **HUSKY & ENGEL** Injection molding machines with 96 and 72 cavities. The Plant has an installed capacity of approx. **1 Billion** preform per annum (15,500 Tonnes). Practical use of state-of-the-art production planning, warehousing and international logistical systems will ensure timely delivery of our product. All our PET preform will have accurate thread finish for better closure fitting and will adhere to all major quality standards.

The basic raw-material required for manufacturing **PET Preform** is Polyethylene Terephthalate (PET) which is majorly supplied in India by 'Reliance Industries Limited' and 'JBF Industries Limited'. Manufacturing Plants of both companies are located in Gujarat only which is a very added advantage. Imports if required can be considered due to easy connectivity with all major ports.

•

## Our Strategic Plant Location

Our state of the art plant is located at **Umbergaon** in the vibrant state of Gujarat about 150 kilometers north of Indian Financial Capital, **Mumbai**. Umbergaon is very well connected both by rail and road ways . Our Plant is about 5 kms from the newly constructed Coastal Highway and 15 kms from Mumbai - Ahmedabad National Highway. Sanjan, the nearest railway station is located just 3 kms from our Plant. Nhava-Seva in Mumbai and other ports

**Manufacturer of  
PET PREFORMS & CAPS**

### Who We are

Annapurna Pet Pvt Ltd,

headquartered in **Mumbai**, manufactures and markets comprehensive range of **PET PREFORMS** in variety of weights, colors and sizes for the most diverse applications like Packaged Water, Carbonated Soft Drinks, Edible Oils, Juices and many others.
